

Document:	PO Terms (For use in Sweden)
Version	November 2019

NOTES TO KANTAR

1 *What is it and when to use*

These terms should be used for procuring low value or low risk 'generic' services relating to Sweden; i.e. where the Kantar operating brand is a Swedish company and/or the supplier is a Swedish company and/or the services are provided in the Sweden.

If you feel the services you require are high value or high risk or multi country, you should refer to your CFO who will seek legal advice to determine if there are any changes that need to be made.

If your CFO agrees that the services required do not require the transfer or processing of Personal Data then reference to Schedule 2 along with Schedule 2 itself may be deleted.

2 *How to use*

Any purchase order for low value/risk services must attach a copy of these template PO terms and must clearly state on the face of it that it is subject to these PO terms.

If you are sending a PO via email, the PO terms must be an attachment within the same email and the email should expressly refer the supplier to them.

Your PO must also clearly state the full details of the services, the price, the date on which the services are to start, the delivery address and delivery date, if applicable, and other key timelines and the parties' full company names and addresses. If the services or time plan is particularly detailed, a specification/proposal can be attached and referred to in the PO by name.

You must also ensure that the Supplier signs the Kantar Code of Business Conduct at Schedule 1 prior to being appointed.

This note should be removed before sending the terms to the Supplier.
